Computer Science

Computer Science, Computer Information Systems, and Geographic Information Systems

Program Description

Students who enroll in a Computer Science/Computer Information Systems/Geographic Information Systems program will have the opportunity to choose from numerous specialty areas including programming, networking, computer repair and maintenance, website development, computer graphic arts, multimedia, and GIS. Programs include certificates, degrees and transfer courses, many of which prepare students for industry certifications. Small class sizes, faculty with industry experience, and community partnerships for practical work experience provide a solid foundation for many careers.

Measurable Outcomes

Successful students who complete a specialty degree or certificate will:

• Demonstrate understanding of theories and practice within their specialty
• Demonstrate skills in using industry standard hardware and software applicable to their specialty
• Demonstrate ability to codify customers’ needs, construct options within given parameters (customers’ needs, software, hardware, financial, etc.) and present, explain and recommend options
